

DUNDALK FLOOD RELIEF SCHEME

Dundalk Emerging Flood Relief Options

Public Participation Day

29th April 2026 11.00 am - 7.00 pm

Hamilton Suite, Gateway Hotel (A91 EF88)

HOW YOU CAN GET INVOLVED

Louth County Council invites you to a Public Participation Day to present the high-level, emerging flood relief options for Dundalk. We wish to gather your views to ensure that the public and stakeholders have a meaningful role in shaping any future flood protection works. Your participation is valued and will support the decision-making process in selecting a Preferred Option.

At the event, participants will be able to:

- View each high-level emerging option,
- Discuss your views with members of the Project Team, and
- Complete a questionnaire to express your viewpoints.

Contact Us

You can keep in touch with the project through our website where we will be posting updates on progress and details of ongoing works.

For further enquiries feel free to contact us via email or post at:
