ARTERIAL DRAINAGE ACTS 1945 AND 1995

RIVER BRIDE (Blackpool) CERTIFIED DRAINAGE SCHEME

PREAMBLE and SCHEDULES A, B AND C.

\_\_\_\_\_/\_\_\_\_/\_\_\_\_  
J. CURTIN  
Director of Engineering Services  
Office of Public Works  
Dublin

## **PREAMBLE**

### **ARTERIAL DRAINAGE ACTS, 1945 AND 1995**

#### **(NO. 3 OF 1945 AND NO. 14 OF 1995)**

### **DRAINAGE SCHEME PREPARED BY THE COMMISSIONERS OF PUBLIC WORKS IN IRELAND** **FOR PART OF THE RIVER BRIDE AND ITS TRIBUTARIES AT BLACKPOOL IN THE COUNTY OF CORK**

We, the Commissioners of Public Works in Ireland, being of the opinion that the execution of arterial drainage works is expedient in respect of a part of the River Bride in the County of Cork, for the purpose of preventing or substantially reducing the periodical localised flooding of lands in the area of that watercourse or such a part or of improving by drainage lands in that area, have prepared a scheme to be known as the **River Bride (Blackpool) Certified Drainage Scheme** for the execution of such works, particulars of which scheme are shown in the Schedules, Maps and Section Drawings hereunto annexed. The scheme has been prepared for the purpose of preventing or substantially reducing localised flooding.

The waters and watercourses proposed to be dealt with are shown in **BLUE** colour on the drawings. The lands to be drained or otherwise improved are shown in **GREEN** colour on the maps. The chainages in metres along each channel are also shown on the drawings.

The drainage works proposed to be executed are mentioned and described in Schedule A.

The lands proposed to be compulsorily acquired or substantially interfered with, the easements, fisheries, water rights, navigation rights and other rights proposed to be compulsorily acquired, restricted, terminated or otherwise interfered with and the roads and bridges (whether public and private) proposed to be diverted, removed or otherwise interfered with are mentioned and described in Schedule B.

The reputed proprietors, owners and rated or other occupiers of the several lands proposed to be compulsorily acquired or substantially interfered with and of the several easements, fisheries, water rights, navigation rights and other rights and private roads and bridges proposed to be compulsorily acquired, restricted, terminated or otherwise interfered with are set forth in the said Schedule B.

RIVER BRIDE (BLACKPOOL) CERTIFIED DRAINAGE SCHEME

The respective aggregate annual values (at the time of preparation of the scheme) of the portions of the benefited lands situated in the County of Cork and the several total increases in the annual values of these portions respectively which will probably arise in consequence of the execution of the scheme are shown in Schedule C.

The area proposed to be constituted a separate Drainage Scheme comprises the waters and watercourses proposed to be dealt with and the lands which will be drained or otherwise improved.

In Witness whereof, we, the Commissioners of Public Works in Ireland, have caused our Common Seal to be hereunto affixed this \_\_\_\_ day of \_\_\_\_\_, 201\_.

**OIFIG NA nOIBREACHA POIBLÍ**

**BAILE ÁTHA CLIATH**

River Bride (Blackpool) Certified Drainage Scheme  
Confirmed by the Minister for Public Expenditure and Reform by Order  
Dated \_\_\_\_ Day of \_\_\_\_\_ 201\_

**ARTERIAL DRAINAGE ACTS 1945 AND 1995**

**RIVER BRIDE (BLACKPOOL) CERTIFIED DRAINAGE SCHEME**

**IN THE COUNTY OF CORK**

**INDEX TO SCHEDULES**

**PAGE**

SCHEDULE A .....	6
SCHEDULE B .....	31
SCHEDULE B1 .....	279
SCHEDULE C .....	282

## ABBREVIATIONS

Works proposed to be executed and properties proposed to be interfered with are indicated on maps and in Schedules A and B with letter prefixed as follows:

B	BRIDGES/CULVERTS
C	CHANNELS
E	EMBANKMENTS
G	GENERAL INTERFERENCES
L	WALLS AND BUILDINGS
M	MILL WEIRS AND MILL RACES
P	PUMP INSTALLATIONS
R	ROADS / REGRADING
SL	SLUICES
T	TRASH SCREEN

## LIST OF WATERCOURSES

RIVER BRIDE (BLACKPOOL) CERTIFIED DRAINAGE SCHEME

Watercourse Number	Watercourse Name
C01	Kiln River
C02	Kiln River (Brewery Branch)
C03	Back Watercourse
C04	Glen River
C05	Glen (Spring Lane Branch)
C06	River Bride (North)
C07	Fair Hill Stream
C08	Glenamought River
C09	Rathpeacon Stream

**Arterial Drainage Acts, 1945 and 1995**  
**River Bride (Blackpool) Certified Drainage Scheme**  
**In the County of Cork**

**Schedule A**

The works proposed to be executed in the course of the River Bride (Blackpool) Certified Drainage Scheme.

<b><u>INDEX OF SCHEDULE A</u></b>	<b><u>PAGE</u></b>

## SCHEDULE A: BRIDGES/CULVERTS

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_211	N/A	N/A	RB_502	C01	B	C01_B01	225 to 240	-	Replace existing culvert with a proposed tapered reinforced concrete culvert section from 5.5m and 2.1m high to 4.8m wide and 1.6m high. New culvert to be tied into existing culvert on Watercourse Road. All drainage outfalls to be fitted with non-return valves.
RB_211	N/A	N/A	RB_502	C01	B	C01_B02	62 to 225	-	Existing culvert to be pressurised during a flood event. Repairs to the existing culvert and work to internal joints to be carried out where necessary. All drainage outfalls to be fitted with non-return valves.
RB_211	RB_304	N/A	RB_502	C01	B	C01_B03	0 to 62	-	Reconstruction of existing culvert section to optimise flow distribution between the Kiln culvert (C01) and the Brewery Branch culvert (C02). All drainage outfalls to be fitted with non-return valves.
RB_211	RB_304	N/A	RB_502	C03	B	C03_B01	0 to 50	-	Existing culvert to be pressurised during a flood event. Repairs to the existing culvert and work to internal joints to be carried out where necessary. All drainage outfalls to be fitted with non-return valves.
RB_206	RB_302	RB_401	RB_501	C06	B	C06_B01	0 to 9	-	Replace existing masonry bridge with a new reinforced concrete bridge. Bridge to be of 7.40m clear span and 9.00m wide deck. Construct new access ramps to bridge, incorporating new reinforced concrete retaining walls where necessary. Service diversions associated with the bridge reconstruction will be required along Fitz's Boreen from the N20 Commons Road to the Old Mallow Road
RB_204	N/A	N/A	RB_501	C06	B	C06_B01a	0 to 75	-	Reconstruction of existing pipe culvert. Proposed reinforced concrete culvert of internal dimension 2.5m wide and 2.0m high. All drainage outfalls to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_207	RB_305	N/A	RB_502	C06	B	C06_B02	0 to 20	-	Replace existing concrete bridge with a new reinforced concrete bridge. Bridge to be of 10.50m clear span and 20m wide deck. Soffit level of new bridge to be 14.85mOD. Construct new access ramps to bridge, incorporating new reinforced concrete retaining walls where necessary.
RB_207	N/A	N/A	RB_501	C06	B	C06_B02a	-	741	Existing pedestrian footbridge to removed.
RB_208	RB_304	N/A	RB_502	C06	B	C06_B03	-	629	Existing pedestrian footbridge to be removed.
RB_208, RB_209	RB_304	N/A	RB_502	C06	B	C06_B04	0 to 342	-	Replace existing channel with a proposed reinforced concrete culvert to be constructed downstream of Blackpool Bypass through Orchard Court. Proposed culvert to be of internal dimension 5.5m wide and 2.1m high. All drainage outfalls to be fitted with non-return valves.
RB_209	RB_304	N/A	RB_502	C06	B	C06_B05	-	111	Removal of existing pedestrian access bridge. Access to be reinstated over the proposed culvert following construction works.
RB_209	RB_304	N/A	RB_502	C06	B	C06_B06	320 to 327	-	Replace existing culvert with a proposed reinforced concrete culvert of internal dimension 5.5m wide and 2.1m high. All drainage outfalls to be fitted with non-return valves.
RB_209	RB_304	N/A	RB_502	C06	B	C06_B07	294 to 320	-	Existing culvert to be pressurised during a flood event. Repairs to the existing culvert and work to internal joints to be carried out where necessary. All drainage outfalls to be fitted with non-return valves.

RIVER BRIDE (BLACKPOOL) CERTIFIED DRAINAGE SCHEME

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_209, RB_211	N/A	N/A	RB_502	C06	B	C06_B08	257 to 294	-	Replace existing culvert with a proposed reinforced concrete culvert of internal dimension 5.5m wide and 2.1m high. All drainage outfalls to be fitted with non-return valves.
RB_211	N/A	N/A	RB_502	C06	B	C06_B09	240 to 257	-	Replace existing open channel with a proposed reinforced concrete culvert at Blackpool Church. Proposed culvert to be of internal dimension 5.5m wide and 2.1m high. All drainage outfalls to be fitted with non-return valves.
RB_203, RB_204	RB_301	RB_401	RB_501	C08	B	C08_B01	0 to 8	-	Replace existing masonry bridge with a new reinforced concrete bridge. Bridge to be of 10.50m clear span and 8m wide deck. Construct new access ramps to bridge, incorporating new reinforced concrete retaining walls where necessary.
RB_204	RB_301	N/A	RB_501	C08	B	C08_B02	0 to 20	-	Replace existing pipe culvert bridge with a new reinforced concrete bridge. Bridge to be of 9.00m clear span and 20m wide deck. Construct new access ramps to bridge, incorporating new reinforced concrete retaining walls where necessary.

## SCHEDULE A: CHANNELS

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_211	N/A	N/A	RB_502	C02	C	C02_C01	-	691 to 699	Local masonry repairs to be carried out within the existing culvert at C02_695. Access for these works to be gained from the existing manhole at C02_740.
RB_211	N/A	N/A	RB_502	C02	C	C02_C02	-	625 to 691	Local masonry repairs to be carried out within the existing culvert at C02_639 and C02_655. Access for these works to be gained from the existing manhole at C02_680.
RB_212	N/A	N/A	RB_502	C02	C	C02_C03	-	500 to 552	Local masonry repairs to be carried out within the existing culvert at C02_508, C02_510 and C02_543. Access for these works to be gained from the existing manhole at C02_577.
RB_212	N/A	N/A	RB_502	C02	C	C02_C04	-	423 to 465	Local masonry repairs to be carried out within the existing culvert at C02_442 to C02_446. Access for these works to be gained from the existing culvert outfall at C02_423.
RB_212	N/A	N/A	RB_502	C02	C	C02_C05	-	250 to 269	Local masonry repairs to be carried out within the existing culvert at C02_250 to C02_269. Access for these works to be gained from the existing culvert inlet at C02_334.
RB_205	RB_301	N/A	RB_501	C06	C	C06_C01	0 to 78	-	Proposed winter channel to be constructed downstream of the Commons Inn in order to increase conveyance during flood events. Winter channel to be a maximum width of 10m wide at mid-section.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_206, RB_207	N/A	N/A	RB_501	C06	C	C06_C02	-	980 to 1418	Proposed reconstructed open channel bed to incorporate natural river features including pools and riffles
RB_207	RB_303	N/A	RB_501	C06	C	C06_C03	-	980 to 1060	Proposed sediment trap to be 80m long and typically 20m wide with maintenance access platform and access ramp. Rock weirs to be constructed at 20m centres.
RB_207	N/A	N/A	RB_501	C06	C	C06_C04	-	915 to 980	Removal of the existing culvert and replace with new re-aligned walled open channel 65m long x average 12m wide from C06_915 to C06_980. New open channel to incorporate natural river features including pools and riffles.
RB_207	N/A	N/A	RB_501	C06	C	C06_C05	-	875 to 915	Proposed reconstructed open channel bed to incorporate natural river features including pools and riffles

## SCHEDULE A: EMBANKMENTS

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_205	RB_301	N/A	RB_501	C06	E	C06_E01	0 to 114	-	Proposed flood defence embankment to be constructed 7.50m wide and to a height of typically 0.80m above existing ground levels to flood defence level (21.90mOD). Flood defence embankment to tie into high ground and a proposed flood defence wall as shown on the drawing.
RB_207	RB_303	N/A	RB_501	C06	E	C06_E02	0 to 121	From approximate chainage 741 to 844 on the River Bride	Proposed flood defence embankment to be constructed typically 12m wide and to a height of 1.15m above existing ground levels to flood defence level (14.65mOD). Flood defence embankment to tie into high ground downstream of Sunbeam Industrial Estate bridge and into the proposed flood defence wall at Blackpool Retail Park.
RB_201	RB_301	N/A	RB_501	C08	E	C08_E01	0 to 62	-	Proposed flood defence embankment to be constructed typically 5.12m wide and to a height of 1.0m above existing ground levels to flood defence level (43.68mOD). Proposed flood defence embankment to tie into high ground at the upstream end and the proposed flood defence wall at the downstream end.
RB_203	N/A	N/A	RB_501	C08	E	C08_E02	0 to 63	-	Proposed flood defence embankment to be constructed typically 4.20m wide and to a height of 0.9m above existing ground levels to flood defence level (varies from 27.73mOD to 28.58mOD). Flood defence embankment to tie into high ground and reinforced concrete wall at each end

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_203	N/A	N/A	RB_501	C08	E	C08_E03	0 to 46	-	Proposed flood defence embankment to be constructed 13.8m wide at its maximum and to a height of 0.8m above existing ground levels to flood defence level (27.1mOD). Flood defence embankment to tie into high ground and reinforced concrete wall at either end.

## SCHEDULE A: GENERAL INTERFERENCES

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_211, RB_212	N/A	N/A	RB_502	C01	G	C01_G01	-	227 to 1173	Channel to be maintained over a distance of 946m from the confluence of the Kiln and the Kiln Brewery Branch (C01_227) to Blackpool Church (C01_1173).
RB_211, RB_212	N/A	N/A	RB_502	C02	G	C02_G01	-	0 to 740	Channel to be maintained over a distance of 740m from the confluence of the Kiln (Brewery Branch) and the Kiln (C02_000) to Madden's Buildings (C02_740).
RB_212	N/A	N/A	RB_502	C02	G	C02_G02	-	370	Proposed otter habitat enhancement measures
RB_209, RB_210, RB_211	N/A	N/A	RB_502	C03	G	C03_G01	-	0 to 542	Channel to be maintained over a distance of 542m from the confluence of the Back Watercourse and the Kiln Watercourses (C03_000) to the existing trash screen on the Glen (Spring Lane Branch at C05_333).
RB_209, RB_210	N/A	N/A	RB_502	C04	G	C04_G01	-	0 to 230	Channel to be maintained over a distance of 230m from the existing trashscreen at Spring Lane (C04_00) to the entrance of the culvert east of the railway line at (C04_230)
RB_210	N/A	N/A	RB_502	C04	G	C04_G02	0 to 30	-	Proposed fencing to be constructed to the east of the rail line and to tie into the existing pedestrian footbridge. A proposed pedestrian gate south of the existing footbridge will provide access to the channel.
RB_209, RB_210	N/A	N/A	RB_502	C04	G	C04_G03	0 to 99	-	Existing fencing to be maintained
RB_209, RB_210	N/A	N/A	RB_502	C04	G	C04_G04	0 to 17	-	Proposed fencing to be constructed around the proposed access ramp (C04_R01) and tie in with proposed wall (C04_L01) at both ends.
RB_210	N/A	N/A	RB_502	C04	G	C04_G05	0 to 11	-	Proposed fencing to be constructed to the east of the rail line and to tie into the existing pedestrian footbridge.
RB_210	N/A	N/A	RB_502	C04	G	C04_G06	-	155	Proposed security gate on existing railway underpass
RB_210	N/A	N/A	RB_502	C04	G	C04_G07	0 to 10	-	Proposed railing/fencing to enclose existing footbridge

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_209, RB_210	N/A	N/A	RB_502	C05	G	C05_G01	-	0 to 398	Channel to be maintained over a distance of 398m from the existing trashscreen at Spring Lane (C05_398) to the confluence to the proposed culvert at the River Bride (C05_000)
RB_204, RB_205, RB_206, RB_207, RB_208, RB_209, RB_211	N/A	N/A	RB_501	C06	G	C06_G01	-	0 to 2673	Channel to be maintained over a distance of 2673m from Blackpool Church (C06_000) to upstream of Rose Cottage (C06_2673).
RB_204, RB_205	N/A	N/A	RB_501	C06	G	C06_G02	-	2187	Proposed otter habitat enhancement measures
RB_207	N/A	N/A	RB_501	C06	G	C06_G03	-	1074	Remove existing pedestrian bridge and weir structure at C06_1074.
RB_205	N/A	N/A	RB_501	C06	G	C06_G04	-	1812	Proposed otter habitat enhancement measures
RB_205, RB_206	N/A	N/A	RB_501	C06	G	C06_G05	-	1726	Proposed access stairs to be constructed over the proposed flood defence wall.
RB_205, RB_206	N/A	N/A	RB_501	C06	G	C06_G06	-	1660	Proposed access stairs to be constructed over the proposed flood defence wall.
RB_205	N/A	N/A	RB_501	C07	G	C07_G01	-	0 to 50	Channel to be maintained over a distance of 50m from the confluence of the River Bride and the Fairhill Stream(C07_000) to the existing 450mm diameter pipe culvert (C07_50).
RB_201, RB_202, RB_203, RB_204	N/A	N/A	RB_501	C08	G	C08_G01	-	0 to 1445	Channel to be maintained over a distance of 1445m from the confluence of the River Glenamought and River Bride (C08_000) to the upstream end of the works (C08_1445).
RB_203	N/A	N/A	RB_501	C08	G	C08_G02	-	402	Proposed access stairs to be constructed over proposed flood defence embankment.
RB_204	N/A	N/A	RB_501	C09	G	C09_G01	-	0 to 59	Channel to be maintained over a distance of 59m from C09_000 to C09_59.

## SCHEDULE A: WALLS AND BUILDINGS

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_209, RB_210	RB_305	RB_401	RB_501	C04	L	C04_L01	0 to 17	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.27mOD).
RB_209, RB_210	RB_305	RB_401	RB_501	C04	L	C04_L01	17 to 45	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.45mOD).
RB_209, RB_210	RB_305	RB_401	RB_501	C04	L	C04_L01	45 to 61	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.66mOD).
RB_209, RB_210	RB_305	RB_401	RB_501	C04	L	C04_L01	61 to 77	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.92mOD).
RB_209, RB_210	RB_305	RB_401	RB_501	C04	L	C04_L01	77 to 93	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.2mOD).
RB_209, RB_210	RB_305	RB_401	RB_501	C04	L	C04_L01	93 to 109	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.48mOD).
RB_204	RB_301	RB_401	RB_501	C06	L	C06_L01	0 to 29	-	Proposed reinforced concrete wall to be constructed to a height typically 0.65m above existing ground levels to flood defence level (25.50mOD). All drainage outfalls to be fitted with non-return valves.
RB_204	RB_301	RB_401	RB_501	C06	L	C06_L01	29 to 102	-	Proposed sheet pile wall to be constructed above flood defence level (25.50mOD) to 25.80mOD on the wet side of the existing boundary wall at Rose Cottage. Finished wall height to be typically 1.70m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_204	N/A	RB_401	RB_501	C06	L	C06_L02	0 to 6	-	Proposed reinforced concrete headwall and wing wall structure to be constructed around the existing concrete culvert inlet.
RB_204	RB_302	RB_401	RB_501	C06	L	C06_L03	0 to 34	-	Existing open wall south of Rose Cottage to be reconstructed in solid blockwork to 1.1m above path level.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_205	RB_302	RB_401	RB_501	C06	L	C06_L04	0 to 31	-	Proposed reinforced concrete flood defence wall to be constructed typically 0.45m above existing ground levels to flood defence level (21.72mOD). Proposed defence wall to tie into proposed flood defence embankment. All drainage outfalls to be fitted with non-return valves.
RB_205, RB_206	RB_302	RB_401	RB_501	C06	L	C06_L05	201 to 259	-	Proposed sheet pile flood defence wall to be constructed typically 0.83m above existing ground levels to flood defence level (20.01mOD). Proposed flood wall to tie into flood wall C07_L02 at the upstream end. All drainage outfalls to be fitted with non-return valves.
RB_205, RB_206	RB_302	RB_401	RB_501	C06	L	C06_L05	182 to 201	-	Proposed sheet pile flood defence wall to be constructed typically 1.32m above existing ground levels to flood defence level (19.80mOD). All drainage outfalls to be fitted with non-return valves.
RB_205, RB_206	RB_302	RB_401	RB_501	C06	L	C06_L05	123 to 182	-	Proposed sheet pile flood defence wall to be constructed typically 1.20m above existing ground levels to flood defence level (19.58mOD). All drainage outfalls to be fitted with non-return valves.
RB_206	RB_302	RB_401	RB_501	C06	L	C06_L05	45 to 123	-	Proposed sheet pile flood defence wall to be constructed typically 1.20m above existing ground levels to flood defence level (19.50mOD). All drainage outfalls to be fitted with non-return valves.
RB_206	RB_302	RB_401	RB_501	C06	L	C06_L05	0 to 45	-	Proposed sheet pile flood defence wall to be constructed typically 1.00m above existing ground levels to flood defence level (19.30mOD). Flood wall to tie into existing bridge parapet. All drainage outfalls to be fitted with non-return valves.
RB_206	RB_302	RB_401	RB_501	C06	L	C06_L06	0 to 9	-	Proposed new reinforced concrete bridge parapet to be constructed typically 0.55m above existing bridge deck level to flood defence level (19.30mOD). All drainage outfalls to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_206	RB_302	RB_401	RB_501	C06	L	C06_L07	0 to 81	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (17.51mOD). New wall to be typically 0.59m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_206	N/A	RB_401	RB_501	C06	L	C06_L08	0 to 76	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (17.51mOD). New wall to be typically 0.56m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_206	N/A	RB_401	RB_501	C06	L	C06_L09	0 to 9	-	Existing bridge parapet to be raised to a height 0.57m above existing ground levels to flood defence level (17.51mOD). All drainage outfalls to be fitted with non-return valves.
RB_206	N/A	RB_401	RB_501	C06	L	C06_L10	0 to 9	-	Formalise and repair existing bridge parapet to flood defence level (17.03mOD), where necessary.
RB_206	N/A	RB_401	RB_501	C06	L	C06_L11	75 to 153	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (17.03mOD). New wall to be typically 0.45m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L11	0 to 19	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (16.58mOD). New wall to be typically 0.94m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L11	19 to 75	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (16.80mOD). New wall to be typically 0.65m above existing ground levels. All drainage outfalls to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_206	RB_303	RB_401	RB_501	C06	L	C06_L12	75 to 151	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (17.03mOD). New wall to be typically 0.35m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L12	0 to 19	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (16.58mOD). New wall to be typically 0.68m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L12	19 to 75	-	Proposed reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (16.80mOD). New wall to be typically 0.45m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L13	0 to 9	-	Existing bridge parapet wall to be raised to a height typically 0.73m above existing ground levels to flood defence level (16.58mOD). All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L14	0 to 9	-	Formalise and repair existing bridge parapet wall to flood defence level (16.03mOD), where necessary.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L15	0 to 91	-	Proposed reinforced concrete reinforced concrete flood defence wall to be constructed behind the existing river wall to flood defence level (16.03mOD). New wall to be typically 1.27m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L16	0 to 59	-	Formalise and repair existing wall to flood defence level (15.65mOD), where necessary. All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L16	59 to 144	-	Formalise and repair existing wall to flood defence level (16.03mOD), where necessary. All drainage outfalls to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_207	RB_304	RB_401	RB_501	C06	L	C06_L17	0 to 88	-	Proposed reinforced concrete retaining wall to form access ramp to proposed sediment trap
RB_207	N/A	RB_401	RB_501	C06	L	C06_L18	0 to 14	-	Proposed reinforced concrete flood defence wall to be constructed to 15.63mOD. (Wall to be constructed above flood defence level of 15.12mOD to retain the proposed road). All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L18	14 to 80	-	Proposed reinforced concrete flood defence wall to be constructed to 15.31mOD. (Wall to be constructed above flood defence level of 15.12mOD for constructability reasons). All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L18	80 to 108	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (15.31mOD). All drainage outfalls to be fitted with non-return valves.
RB_207	N/A	RB_401	RB_501	C06	L	C06_L18	108 to 147	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (15.65mOD). All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L19	0 to 20	-	Proposed reinforced concrete flood defence wall to be constructed to 15.63mOD. (Wall to be constructed above flood defence level of 15.12mOD to retain the proposed road). All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L19	20 to 86	-	Proposed reinforced concrete flood defence wall to be constructed to 15.43mOD. (Wall to be constructed above flood defence level of 15.12mOD to retain the proposed road). All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L19	86 to 90	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (15.31mOD). All drainage outfalls to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L19	90 to 129	-	Proposed reinforced concrete flood defence wall to be constructed to 15.43mOD. (Wall to be constructed above flood defence level of 15.31mOD to retain the proposed road). All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L19	129 to 190	-	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (15.65mOD). All drainage outfalls to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	L	C06_L19	190 to 219	-	Proposed reinforced concrete flood defence wall to be constructed to 15.76mOD. (Wall to be constructed above flood defence level of 15.65mOD to retain the proposed road). All drainage outfalls to be fitted with non-return valves.
N/A	N/A	N/A	N/A	C06	L	C06_L20	-	-	Not used.
RB_207	RB_305	RB_401	RB_501	C06	L	C06_L21	0 to 15	-	Proposed reinforced concrete retaining wall to be constructed to a height typically 0.42m above proposed road levels.
RB_207, RB_208	RB_304	RB_401	RB_501	C06	L	C06_L22	0 to 212	-	Proposed mini-piled reinforced concrete flood defence wall to be constructed to a height maximum 1.53m above existing ground levels to flood defence level (14.65mOD). All drainage outfalls to be fitted with non-return valves.
RB_208	N/A	RB_401	RB_501	C06	L	C06_L23	0 to 49	-	Proposed reinforced concrete flood defence wall to be constructed to a height maximum 1.53m above existing ground levels to flood defence level (13.80mOD). All drainage outfalls to be fitted with non-return valves. Works to include construction of a new surface water sump manhole with associated local collector drain adjacent to the new flood defence wall.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_205	RB_302	RB_401	RB_501	C07	L	C07_L01	0 to 7	-	Proposed reinforced concrete flood defence wall to be constructed typically 0.99 m above existing ground levels to flood defence level (20.05mOD). Proposed flood wall to tie into high ground and into proposed flood wall C07_L02. All drainage outfalls to be fitted with non-return valves.
RB_205, RB_206	N/A	RB_401	RB_501	C07	L	C07_L02	0 to 43	-	Proposed sheet pile flood defence wall to be constructed typically 1.20m above existing ground levels to flood defence level (20.01mOD). Proposed flood wall to tie into proposed flood walls C07_L01 and C06_L05. All drainage outfalls to be fitted with non-return valves, other than the outlet of the proposed 0.90m pipe.
RB_201	N/A	RB_401	RB_501	C08	L	C08_L01	0 to 30	-	Proposed reinforced concrete wall to be constructed to flood defence level (varies from 43.31mOD to 43.61mOD) on the wet side of the existing boundary wall at Collins' House. Flood wall to tie into high ground at the downstream end and proposed flood defence embankment at the upstream end. Finished wall height to be typically 0.56m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_201, RB_202	N/A	RB_401	RB_501	C08	L	C08_L02	0 to 21	-	Proposed reinforced concrete wall to be constructed to flood defence level (varies from 37.4mOD to 38.34mOD) at O'Sheas Buildings. Flood wall to tie into the existing bridge structure at the upstream end, and existing ground level at the downstream end. Finished wall height to be typically 0.8m above existing ground levels. All drainage outfalls to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_202	RB_301	RB_401	RB_501	C08	L	C08_L03	0 to 58	-	Proposed reinforced concrete wall to be constructed to flood defence level (varies from 35.15mOD to 36.44mOD) at O'Sheas Buildings. Flood wall to tie into existing ground level at both ends. Finished wall height to be typically 0.53m above existing ground levels. All drainage outfalls to be fitted with non-return valves.
RB_203	RB_301	RB_401	RB_501	C08	L	C08_L04	0 to 31	-	Proposed reinforced concrete wall to be constructed to flood defence level 27.24mOD at Woodpark. Flood wall to tie into flood defence embankments on both sides. Finished wall height to be typically 1.5m above existing ground levels. All drainage outfalls to be fitted with non-return valves.

## SCHEDULE A: MILL WEIRS AND MILL RACES

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_211	N/A	N/A	RB_502	C02	M	C02_M01	-	740	Proposed flow control feature to be constructed on the confluence of the Kiln and the Brewery Branch at C02_740 to limit flow in the Brewery Branch to existing capacity.

## SCHEDULE A: PUMP INSTALLATIONS

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_205, RB_206	N/A	N/A	RB_501	C06	P	C06_P01	-	1635	Proposed overflow surface water pumping station and rising main to operate during a flood event at C06_1635. All outlets to be fitted with non-return valves.
RB_206	N/A	N/A	RB_501	C06	P	C06_P02	-	1414	Proposed overflow surface water pumping station and rising main to be constructed on existing surface water drainage network at C06_1414. Pump to operate during a flood event. All outlets to be fitted with non-return valves.
RB_207	RB_303	RB_401	RB_501	C06	P	C06_P03	-	1200	Proposed surface water overflow pump station, collector drain, overflow manhole and rising main to operate during a flood event at C06_1200. All outlets to be fitted with non-return valves.
RB_207	N/A	N/A	RB_501	C06	P	C06_P04	-	1031	Proposed surface water overflow pump station, collector drain, overflow manhole and rising main to operate during a flood event at C06_1031. All outlets to be fitted with non-return valves.
RB_209	RB_304	N/A	RB_502	C06	P	C06_P05	-	339	Proposed local surface water pumping station, collector drain, manhole and rising main to operate during a flood event at C06_339. All outlets to be fitted with non-return valves.
RB_209	RB_304	N/A	RB_502	C06	P	C06_P06	-	134	Proposed combined sewer overflow (CSO) pumping station, collector drain and rising main to operate during a flood event at C06_134. All outlets to be fitted with non-return valves.
RB_209	N/A	N/A	RB_502	C06	P	C06_P07	-	134	Proposed local surface water pumping station, collector drain, manhole and rising main to operate during a flood event at C06_134. All outlets to be fitted with non-return valves.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_209, RB_211	N/A	N/A	RB_502	C06	P	C06_P08	-	37	Proposed combined sewer overflow (CSO) pumping station, collector drain, manhole and rising main to operate during a flood event at C06_37. All outlets to be fitted with non-return valves.

## SCHEDULE A: ROADS / REGRADING

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_211	N/A	N/A	RB_502	C01	R	C01_R01	-	From chainage 1119 to 1124 on the Kiln River	Proposed localised regrading of ground levels to divert surface water overland flow during a flood event southwards along Watercourse Road to the existing low point adjacent to the Madden's Buildings junction.
RB_211	N/A	N/A	RB_502	C01	R	C01_R02	-	From chainage 1088 to 1093 on the Kiln River	Proposed localised regrading of ground levels to divert surface water overland flow during a flood event southwards along Watercourse Road to the existing low point adjacent to Maddens Building's junction.
RB_211	N/A	N/A	RB_502	C01	R	C01_R03	-	From chainage 1066 to 1071 on the Kiln River	Proposed localised regrading of ground levels to divert surface water overland flow during a flood event southwards along Watercourse Road to the existing low point adjacent to Madden's Buildings junction.
RB_211	N/A	N/A	RB_502	C01	R	C01_R04	-	From chainage 1017 to 1026 on the Kiln River	Proposed localised regrading of ground levels to divert surface water overland flow during a flood event southwards along Watercourse Road to the existing low point adjacent to Madden's Buildings junction.
RB_211	N/A	N/A	RB_502	C01	R	C01_R05	-	From chainage 987 to 992 on the Kiln River	Proposed localised regrading of ground levels to divert surface water overland flow during a flood event southwards along Watercourse Road to the existing low point adjacent to Madden's Buildings junction.
RB_211	N/A	N/A	RB_502	C01	R	C01_R06	-	From chainage 1017 to 1026 on the Kiln River	Proposed localised regrading of ground levels to divert surface water overland flow during a flood event southwards along Watercourse Road to the existing low point adjacent to Madden's Buildings junction.
RB_209, RB_210	N/A	N/A	RB_502	C04	R	C04_R01	0 to 17	-	Proposed vehicle ramp to facilitate maintenance access to the channel and roughing screen.
RB_204	N/A	N/A	RB_501	C06	R	C06_R01	0 to 15	-	Proposed vehicle access ramp crest to be at flood defence level (25.00mOD). Proposed ramp to tie into the proposed flood defence wall at Rose Cottage and high ground at the N20 road embankment.

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_204	N/A	N/A	RB_501	C06	R	C06_R02	0 to 48	-	Proposed regrading of existing ground levels to divert surface water overland flow (during a design exceedance event) underneath the existing N20 road bridge to the Rathpeacon Stream.
RB_207	RB_303	N/A	RB_501	C06	R	C06_R03	0 to 202	-	Proposed new access road and footpath 202m long x 7m wide, with 1.5m wide footpath on the northern side. Locally raise road to flood defence level (15.31mOD) at chainage 75m.
RB_207, RB_208	N/A	N/A	RB_501	C06	R	C06_R04	0 to 58	-	Existing ground to be regraded to provide pedestrian access over the proposed flood embankment into the park to flood defence level (14.65mOD). Ramp to be graded at a maximum slope of 1:20.
RB_205	N/A	N/A	RB_501	C07	R	C07_R01	0 to 9		Proposed regrading of existing ground levels at the Commons Inn entrance to divert excess surface runoff to the Fairhill Stream.
RB_203	N/A	N/A	RB_501	C08	R	C08_R01	0 to 47	-	Proposed surface water drainage measures and regrading of local ground levels to divert excess surface water runoff into the River Glenamought upstream of North Point Business Park bridge.
RB_203, RB_204	N/A	N/A	RB_501	C08	R	C08_R02	0 to 217	-	Formalise existing track for maintenance vehicles, including constructing guard barriers, vegetation trimming and repair works to existing drainage where necessary.
RB_203	N/A	N/A	RB_501	C08	R	C08_R02	217 to 295	-	Proposed access track to facilitate maintenance access to the channel and proposed roughing screen.
RB_203	N/A	N/A	RB_501	C08	R	C08_R03	0 to 13	-	Road to be regraded at 1 in 12 to flood defence level 27.1mOD. Crest of ramp to tie into proposed flood defence embankment on north side and high ground on the south side.

## SCHEDULE A: SLUICES

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_209, RB_210	N/A	N/A	RB_502	C05	SL	C05_SL01	-	398	Proposed vortex flow control manhole to limit flow on the Glen (Spring Lane Branch). A penstock is proposed to act as a backup control measure.

## SCHEDULE A: TRASHSCREENS

Drawing references				Interference references				Description of Interference	
Plan No.	Section Drawing No.	Works Finishes Drawing No.	Possible Access Routes & Work Areas Drawing No.	Watercourse No.	Type of Interference	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	General Description of New Works
RB_209, RB_210	N/A	N/A	RB_502	C04	T	C04_T01	-	10	Proposed roughing screen to be installed upstream of the existing Spring Lane trashscreen.
RB_209, RB_210	N/A	N/A	RB_502	C05	T	C05_T01	-	398	Existing trash screen on Spring Lane to be removed at C05_398.
RB_204	N/A	N/A	RB_501	C06	T	C06_T01	-	2666	Existing 2 no. trash screens to be removed and replaced with a single new roughing screen upstream of Rose Cottage.
RB_207	RB_303	N/A	RB_501	C06	T	C06_T02	-	785	Proposed trash screen to be constructed adjacent to Blackpool Retail Park. A mammal passage is to be incorporated into the western arm of the structure to facilitate bypass of the trash screen
RB_203	N/A	N/A	RB_501	C08	T	C08_T01	-	555 to 560	Proposed roughing screen and associated working area to be installed upstream of Kilnap Bridge.

# Arterial Drainage Acts, 1945 and 1995

## River Bride (Blackpool) Certified Drainage Scheme

### In the County of Cork

#### Schedule B

This schedule consists of lands proposed to be compulsorily acquired or substantially interfered with, the easements, fisheries, water rights, navigation rights and other rights proposed to be compulsorily acquired, restricted, terminated or otherwise interfered with and the roads and bridges (whether public or private) proposed to be diverted, removed or otherwise interfered with. The reputed proprietors, owners and rated or other occupiers of the several lands proposed to be compulsorily acquired or substantially interfered with and of several easements, fisheries, water rights, navigation rights and other rights and private roads and bridges proposed to be compulsorily acquired, restricted, terminated or otherwise interfered with are set forth.

All levels quoted are to Malin Head datum.

AP1126	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	7 - 17	Between chainage 6 to 16 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.27mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A
AP1126	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	17 - 45	Between chainage 16 to 44 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.45mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A
AP1126	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	45 - 61	Between chainage 44 to 60 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.66mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A
AP1126	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	61 - 77	Between chainage 60 to 76 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.92mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A
AP1126	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	77 - 93	Between chainage 76 to 92 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.2mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A
AP1126	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	93 - 105	Between chainage 92 to 104 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.48mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1128	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	7 - 17	Between chainage 6 to 16 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.27mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Co. Cork	N/A
AP1128	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	17 - 45	Between chainage 16 to 44 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.45mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Co. Cork	N/A
AP1128	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	45 - 61	Between chainage 44 to 60 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.66mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Co. Cork	N/A
AP1128	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	61 - 77	Between chainage 60 to 76 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.92mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Co. Cork	N/A
AP1128	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	77 - 93	Between chainage 76 to 92 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.2mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Co. Cork	N/A
AP1128	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	93 - 105	Between chainage 92 to 104 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.48mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Co. Cork	N/A

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1129	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	0 - 7	Between chainage 0 to chainage 6 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (16.27mOD).	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, Anglesea Street, Cork City	N/A	<p>Anthony McCarthy, 4 Lotamore Drive, Mayfield, Cork Co. Cork</p> <p>David Burke, 1 Greenwood Estate, Togher, Cork Co. Cork</p> <p>Glen Hall Management Limited, 42 Upper Cork Street, Mitcheltown Co. Cork</p> <p>John Martin, 1 Murmont Cirlice, Montenotte, Cork Co. Cork</p> <p>John Murphy, 'Monard', Rathpeacon Co. Cork</p> <p>Michael Murphy, Gerald Griffin Street, Cork Co. Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP2075	RB_209, RB_210, RB_305, RB_401, RB_501	C04	C04_L01	102 - 105	Between chainage 100 to chainage 103 on the Glen River	Proposed reinforced concrete flood defence wall to be constructed to flood defence level (17.48mOD).	Gerard O'Sullivan & Teresa O'Sullivan, Lughnasa, Lower Annmount, Co. Cork	Cork Steel Company Limited, C/o Teresa O'Sullivan, Lughnasa, Lower Annmount, Glounthaune, Co. Cork	N/A
AP1006	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	67 - 102	In the vicinity of chainage 2642.	Proposed sheet pile wall to be constructed above flood defence level (25.50mOD) to 25.80mOD on the wet side of the existing boundary wall at Rose Cottage. Finished wall height to be typically 1.70m above existing ground levels. All drainage outfalls to be fitted with non-return valves.	Jerome (Jerry) Cronin, Blackstone House, Kiln Road, Killeens, Co. Cork	N/A	Mary Cronin, C/o Jerome Cronin, Blackstone House, Kiln Road, Killeens Co. Cork  Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, City Hall, Anglesea Street Cork City
AP1007	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	36-41	Between chainage 2592 and 2596 on the River Bride.	Proposed reinforced concrete wall to be constructed to a height typically 0.65m above existing ground levels to flood defence level (25.00mOD). All drainage outfalls to be fitted with non-return valves.	Michael Hyde & Timothy Hyde, Commons Road, Killeens, Co. Cork	N/A	N/A

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1007	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	20 - 29	Between chainage 2592 and 2610 on the River Bride.	Proposed reinforced concrete wall to be constructed to a height typically 0.65m above existing ground levels to flood defence level (25.00mOD). All drainage outfalls to be fitted with non-return valves.	Michael Hyde & Timothy Hyde, Commons Road, Killeens, Co. Cork	N/A	N/A
AP1007	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	29 - 67	Between chainage 2596 and 2612 on the River Bride.	Proposed sheet pile wall to be constructed above flood defence level (25.50mOD) to 25.80mOD on the wet side of the existing boundary wall at Rose Cottage. Finished wall height to be typically 1.70m above existing ground levels. All drainage outfalls to be fitted with non-return valves.	Michael Hyde & Timothy Hyde, Commons Road, Killeens, Co. Cork	N/A	N/A
AP1008	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	0 - 20	Between chainage 2585 and 2592 on the River Bride.	Proposed reinforced concrete wall to be constructed to a height typically 0.65m above existing ground levels to flood defence level (25.00mOD). All drainage outfalls to be fitted with non-return valves.	Cork County Council, C/o The County Solicitor, Law Department, 12th Floor, Carrigrohane Road, Co. Cork	N/A	Ellen Buckley, 'Rose Cottage', Commons Road, Blackpool, Cork City Co. Cork

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1009	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	29 - 102	Between chainage 2596 and 2642 on the River Bride.	Proposed sheet pile wall to be constructed above flood defence level (25.50mOD) to 25.80mOD on the wet side of the existing boundary wall at Rose Cottage. Finished wall height to be typically 1.70m above existing ground levels. All drainage outfalls to be fitted with non-return valves.	Ellen Buckley, 'Rose Cottage', Commons Road, Cork City, Co. Cork	N/A	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, City Hall, Anglesea Street Cork City
AP1011	RB_204, RB_301, RB_401, RB_501	C06	C06_L01	24 - 26	Between chainage 2596 and 2597 on the River Bride.	Proposed sheet pile wall to be constructed above flood defence level (25.50mOD) to 25.80mOD on the wet side of the existing boundary wall at Rose Cottage. Finished wall height to be typically 1.70m above existing ground levels. All drainage outfalls to be fitted with non-return valves.	Cork County Council, C/o The County Solicitor, Law Department, 12th Floor, Carrigrohane Road, Co. Cork	N/A	Ellen Buckley, 'Rose Cottage', Commons Road, Blackpool, Cork City Co. Cork  Eileen Buckley, 'Rose Cottage', Commons Road, Cork Co. Cork
AP1007	RB_204, RB_401, RB_501	C06	C06_L02	0 - 6	In the vicinity of chainage 2600 on the River Bride	Proposed reinforced concrete headwall and wing wall structure to be constructed around existing concrete culvert inlet. Head wall to have concrete fair finish.	Michael Hyde & Timothy Hyde, Commons Road, Killeens, Co. Cork	N/A	N/A

RIVER BRIDE (BLACKPOOL) CERTIFIED DRAINAGE SCHEME

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1009	RB_204, RB_501	C06	C06_L03	0 - 34	Between chainage 2595 to 2642 on the River Bride	Existing open wall south of Rose Cottage to be reconstructed in solid blockwork to 1.1m above path level.	Ellen Buckley, 'Rose Cottage', Commons Road, Cork City, Co. Cork	N/A	Cork City Council, C/o Deborah Hegarty, City Law Agent, Law Agents Office, City Hall, Anglesea Street Cork City
AP1038	RB_205, RB_401, RB_501	C06	C06_L04	0 - 31	Between chainage 1966 to 1997 on the River Bride	Proposed reinforced concrete flood defence wall to be constructed typically 0.45m above existing ground levels to flood defence level (21.72mOD). Proposed defence wall to tie into proposed flood defence embankment. All drainage outfalls to be fitted with non-return valves.	Frederick O'Neill, Parkland House', Parkmeade Close, Parklands, Cork City, Co. Cork	Kenroode Investments Limited, C/o Michael Cotter (Receiver), Ernst and Young, City Quarter, Cork City, Co. Cork  The Commons Express Inn, C/o The Great National Hotels and Resorts Ireland, Suit 15, 1st Floor, Information Age Park, Ennis, Co. Clare	Anthony Falvey, 'Amberleigh', Commons Road, Blackpool, Cork City Co. Cork  Martin Falvey and Margaret Falvey, 'Greystones', Commons Road, Blackpool, Cork City Co. Cork
AP1049	RB_205, RB_302, RB_401, RB_501	C06	C06_L05	252 - 259	Between chainage 1754 to 1756 on the River Bride	Proposed sheet pile flood defence wall to be constructed typically 0.83m above existing ground levels to flood defence level (20.01mOD). Proposed flood wall to tie into flood wall C07_L02 at the upstream end. All drainage outfalls to be fitted with non-return valves.	Anthony Falvey, 'Amberleigh', Commons Road, Cork City, Co. Cork	N/A	N/A

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1050	RB_206, RB_302, RB_401, RB_501	C06	C06_L05	225 - 252	Between chainage 1733 to 1754 on the River Bride	Proposed sheet pile flood defence wall to be constructed typically 0.83m above existing ground levels to flood defence level (20.01mOD). Proposed flood wall to tie into flood wall C07_L02 at the upstream end. All drainage outfalls to be fitted with non-return valves.	Martin Falvey & Margaret Falvey, 'Greystones', Commons Road, Cork City, Co. Cork	N/A	N/A
AP1052	RB_206, RB_302, RB_401, RB_501	C06	C06_L05	201 - 225	Between chainage 1708 to 1733 on the River Bride	Proposed sheet pile flood defence wall to be constructed typically 0.83m above existing ground levels to flood defence level (20.01mOD). Proposed flood wall to tie into flood wall C07_L02 at the upstream end. All drainage outfalls to be fitted with non-return valves.	Alexander Morrissey & Shelia Morrissey, 'Lyndon Lodge', Commons Road, Cork City, Co. Cork	N/A	N/A
AP1053	RB_206, RB_401, RB_501	C06	C06_L05	182 - 201	Between chainage 1690 to 1708 on the River Bride	Proposed sheet pile flood defence wall to be constructed typically 1.32m above existing ground levels to flood defence level (19.80mOD). All drainage outfalls to be fitted with non-return valves.	Patrick McCarthy, 'Bride Villa', Commons Road, Cork City, Co. Cork	N/A	N/A

RIVER BRIDE (BLACKPOOL) CERTIFIED DRAINAGE SCHEME

Plot No.	Drawing Numbers	Watercourse No.	Interference Reference	Scheme Element Chainage (DS-US)	Location & Channel Chainage	Nature & extent of Interference	Registered / Reputed Owner & Address	Occupier / Reputed Occupier & Address if different to Owner	Beneficiaries of Rights of Way, Wayleave or Easement
AP1054	RB_206, RB_302, RB_401, RB_501	C06	C06_L05	123 - 182	Between chainage 1610 to 1690 on the River Bride	Proposed sheet pileflood defence wall to be constructed typically 1.2m above existing ground levels to flood defence level (19.58mOD). All drainage outfalls to be fitted with non-return valves.	Karpool Limited, C/o Kevin O'Leary Group, Silversprings, Cork City, Co. Cork	Enterprise Rent-A-Car, Commons Road, Blackpool, Cork	Noel Deasy, Noel Deasy Cars, New Mallow Road, Cork City Co. Cork  Cork County Council, C/o The County Solicitor, Law Department, 12th Floor, County hall, Carrigrohane Road Co. Cork
AP1054	RB_206, RB_401, RB_501	C06	C06_L05	72 - 123	Between chainage 1561 to 1610 on the River Bride	Proposed sheet pile flood defence wall to be constructed typically 1.2m above existing ground levels to flood defence level (19.5mOD). Flood wall to tie into higher ground. All drainage outfalls to be fitted with non-return valves.	Karpool Limited, C/o Kevin O'Leary Group, Silversprings, Cork City, Co. Cork	Enterprise Rent-A-Car, Commons Road, Blackpool, Cork	Noel Deasy, Noel Deasy Cars, New Mallow Road, Cork City Co. Cork  Cork County Council, C/o The County Solicitor, Law Department, 12th Floor, County hall, Carrigrohane Road Co. Cork

# **Arterial Drainage Acts, 1945 and 1995**

## **River Bride (Blackpool) Certified Drainage Scheme**

### **In the County of Cork**

#### **Schedule B1**

This schedule consists of easements, fisheries, water-rights, navigation rights and other rights which are to be interfered with and a description of the Interference with the Right.

#### **INDEX TO SCHEDULE B1**

#### **PAGE**

LISTING OF RIGHTS AND ASSOCIATED INTERFERENCES

280

## SCHEDULE B.1. LISTING OF EASEMENTS, FISHERIES, WATER-RIGHTS, NAVIGATION RIGHTS, AND OTHER RIGHTS WHICH ARE TO BE INTERFERED WITH

Right	Interference with Right
Fishing Rights.	<b>Fishing Rights:</b> Access to the River Bride will be interfered with by the construction of flood defences such as walls or embankments.
Rights of Way	<b>Rights of way.</b> Rights of way that exist on properties being interfered with by the works may be interfered with by the proposed works.
Right of owner or occupier to refuse third party permission to enter on the property.	<b>Power of entry.</b> Once the Scheme is confirmed, the Commissioners of Public Works, their officers, servants, agents and contractors, will have the right of entry on to the property to carry out construction, inspection, maintenance, modification, and any other works deemed necessary by the Commissioners in connection with the Drainage Scheme, and they will have the right to bring any equipment and machinery deemed necessary to carry out such works on to the property.
Right of owner or occupier to carry out any works on the property, whether such works require Planning Permission or not, and, whether such works require the permission of other parties or not.	<b>Works which would interfere with any works completed as part of the scheme.</b> Once the scheme is confirmed, no person may carry out any works which would interfere with the flood defences or any other works completed as part of the scheme unless they have first obtained the consent of the Commissioners under section 9 of the Arterial Drainage (Amendment) Act of 1995
Right of owner or occupier to carry out any works on the property, whether such works require Planning Permission or not, and, whether such works require the permission of other parties or not.	<b>Works which would interfere with Access to the Drainage Scheme.</b> Once the scheme is confirmed, no person may carry out any works which would prevent the Commissioners of Public works (or their officers, servants, agents or contractors) from gaining access to the Drainage Scheme Works for the purpose of carrying out maintenance of the works.
Right of owner or occupier to own materials which are part of the land or property.	After the scheme is confirmed, for the purpose of carrying out the Scheme the Commissioners of Public Works, their officers, servants, agents and contractors, will have the power to remove sods and other materials from the land, to deposit materials on the land, to use such materials in the course of carrying out the scheme and to do any such thing as deemed necessary or proper by the Commissioners for the carrying out of the scheme.
Right of owner or occupier to own land and own rights pertaining to the land.	After the scheme is confirmed, the Commissioners of Public Works may, if an order is made by the Minister, compulsorily acquire lands or any rights
Wayleaves	<b>Wayleaves.</b> Wayleaves that exist on the properties being interfered with by the works may be interfered with by the proposed works
Right of owner or occupier to use land for purposes which are agricultural in nature.	Embankments constructed as part of the scheme should not be tilled or planted with any vegetation except grass. Grazing the embankments, particularly by heavy animals such as cattle or horses could cause damage to the embankments. If this were to occur, such activity would be restricted.

Right	Interference with Right
<p>Rights of Utility Owners who have Rights of Way or Wayleaves associated with construction, maintenance, replacement, and other works in connection with utilities and utility infrastructure that may be existing, planned, or may be planned in the future on properties where scheme works are being carried out.</p>	<p>Existing Utilities and Utility Infrastructure that cause an obstruction to the construction of the Drainage Scheme works will need to be relocated to facilitate the construction of the works. It will be necessary to relocate Utilities or Utility infrastructure that would interfere with the safe construction or maintenance of the works. Future utilities or utility infrastructure may not be installed or constructed in a way which interferes with any element of the Drainage Scheme works, nor which would interfere with the safe maintenance of the works, unless consent has been obtained from the Commissioners of Public Works under Section 9 of the Arterial Drainage (Amendment) Act of 1995. Existing utilities and utility infrastructure which would adversely affect the integrity of elements of the Drainage Scheme works will need to be modified so that the elements of the Drainage Scheme works carry out their intended function.</p>

**Arterial Drainage Acts, 1945 and 1995**  
**River Bride (Blackpool) Certified Drainage Scheme**  
**In the County of Cork**  
**Schedule C**

The respective aggregate annual values (at the time of preparation of the scheme) of the portions of the benefited lands situated in the County of Cork and the several total increases in the annual values of those portions respectively which will probably arise in the consequence of the execution of the scheme.
