Meeting Minutes:

Meeting called to review and discuss the environment assessment report issued by Arup on the proposed advance works tree cutting programme.

It was discussed that the proposed tree cutting works are already covered by the original EIAR, just being completed ahead of time (to avail of the tree cutting window), as such, there is no variation from the original EIAR.

In this instance a letter confirming this is all that is required, rather than a full detailed report.

GW to revert to Arup to outline the changes required.
