Galway City Council, acting as agents for the Office of Public Works (OPW), has commissioned Arup to develop a Flood Relief Scheme for Galway City. The objective of this project is to assess and develop a Flood Relief Scheme, that is technically, socially, environmentally, aesthetically and economically acceptable, to reduce the risk of fluvial and coastal flooding to Galway City.

The project is currently progressing through Stage 1: Development of flood relief options and Identification of a preferred scheme. As part of this process, we are holding a non-statutory Public Engagement Event at which a suite of potential flood relief options will be presented for public comment. The purpose of this Public Engagement Event is to outline the updated fluvial and coastal flood extents, provide the opportunity to give feedback on the potential flood relief options to inform the identification of the preferred scheme, and to outline the next stages.

Galway City Council and the Office of Public Works invite you to be part of this consultative process. To help facilitate as many stakeholders attend as possible, there are 2 opportunities over 2 days to attend the event as per the details below.

**Galway Bay Hotel, H91 W295**  
**Tuesday 17 June 2025**  
**3pm to 8pm**

**The Harbour Hotel, H91 E9PR**  
**Wednesday 18 June 2025**  
**3pm to 8pm**

If you are unable to attend in person, there will be a virtual engagement room which will go live at 3pm on 17 June 2025 [here](#). There will also be an opportunity to provide feedback through an online questionnaire.

Alternatively, you are invited to submit your feedback until 18 July 2025 to:
