

Emerging Preferred Option - Ballyvolane

- **Replacement of existing trash screen** at upstream end of Mervue Lawn with new larger screen design to current best practice.
- **Management of residual overland flood risk** by creation of defined overland flood route utilising the following:
 - Re-grading of Ballyhooley Road in the vicinity of Mervue Lawn to direct overland flow along road into swale in Kempton Park
 - Re-grading of access road into Mervue Lawn
 - Removal of boundary wall to north east of Kempton Park
 - Re-grading of Kempton Park and creation of new swale with connections to existing culvert system
 - Creation of new swale to east of Leeds Park and Park Court
 - Replacement of a number of manhole covers with slotted gratings
