# **Ballinasloe Flood Relief Scheme**

2

**Emerging Potential Options Consultation** 

# **Public Consultation Process**

Let your views be known

## **Stakeholder Input and Consultation**

An important element of the Scheme involves consultation with all interested parties including the public to give their views on the viable options, thereby influencing the decisionmaking process. All comments are considered and, where relevant, further updates to the options will be carried out.

### You are here

Emerging **Potential Options Consultation** 

### **Public Consultation** Day No.1 5th March 2020

- Purpose of project set out
- Constraints study explained
- Overview of potential outcomes
