Ballina/Killaloe 

Flood Relief Scheme

Tipperary Bundle 2 - Ballina–Killaloe Flood Relief Scheme

Stakeholder and Public Engagement Event
Starting November 8th, 2021
Online

Purpose of the Project

The purpose of the Tipperary Bundle 2 - Ballina–Killaloe Flood Relief Scheme is to alleviate the risk of flooding to the Communities of Killaloe and Ballina (due to flooding from the *Grange stream* and *Drumbane river* identified on the map below) by providing a scheme that is technically, socially, environmentally and economically acceptable.

Tipperary County Council have appointed ByrneLooby to undertake the design and implementation of the proposed Flood Relief Scheme. Tipperary County Council will be working together with the Office of Public Works to deliver the project.

This is the first public engagement event for the project; its objective is to gather information from the public about their

experiences of flooding in the Scheme Area along with their thoughts on possible solutions to the flooding problem and their preferences in this regard. Local experience, knowledge and insight is an essential prerequisite for any successful Flood Relief Scheme.

We also welcome your input on potential environmental issues within the Study Area. Your views on constraints with regards to environmental issues and the implementation of solutions would be appreciated.

Your Feedback is Important

This is your opportunity to take part at the early stages of the planning of the Tipperary Bundle 2 – Ballina–Killaloe Flood Relief Scheme. Tipperary County Council and the Office of Public Works wishes to consider all viewpoints in relation to the study area being examined.

Time Spent communicating your views to the project team is appreciated.

The general public and all interested parties are invited to give their opinions on the study area. Please examine the Study area shown overleaf and let your views be known by completing and returning the **Questionnaire** by 6th December 2021. Information on the questionnaires can be found on the project website.

All completed questionnaires, queries and comments in relation to this project can be sent to either of the following.
